CAREER OBJECTIVE:

To apply my skills as a MERN stack developer in a dynamic and challenging environment where I can contribute to innovative projects. I aim to develop high-quality, adaptable, and user-friendly web applications using MongoDB, Express.js, React, and Node.js. Committed to continuous learning and professional growth, I seek to join a team that harnesses my passion for crafting seamless user experiences and coding clean, maintainable solutions.

CAREER PROFILE/SKILLS:

- Frontend
- React
- Redux
- HTML5
- Responsive Design
- Material-UI
- Bootstrap
- Tailwind CSS
- Next.js
- CSS3
- JavaScript
- Bootstraps 5
- Backend
- Node.js
- Express.js
- RESTful APIs
- Middleware
- JSON Web Tokens
- Database
- NoSQL
- Database Design
- MongoDB
- Mongoose
- Tools
- Git
- DevOps & Deployment
- Vercel
- AWS (Amazon Web Services)
- Soft skills
- Problem-Solving
- Communication

PROFESSIONAL WORK EXPERIENCE:

Organization:

IT Genesis

(Indiech Middle East)

Tenure:

September 2023 – April 2024

Designation:

MERN STACK DEVELOPER

Responsibilities:

- My design mockups from tools like figma, sketch or psd into fully functional web pages using html, css, and javascript.
- My website or application is accessible and looks good on all devices, including desktops, tablets, and smartphones.
- I optimize website performance by minimizing load times, ensuring seamless interactions, and refining the overall efficiency of the front-end code.
- improve user experience by creating intuitive, interactive, and user-friendly interfaces, following best practices in usability.
- Developing server-side logic using Node.js and Express.js, handling data and ensuring smooth server operation
- Working with MongoDB to store, retrieve, and manipulate data efficiently.
- Integrating third-party APIs or developing APIs to connect front-end and back-end functionality.

Achievement:

- Built and maintained complex user interfaces for a SaaS application using React, resulting in a 30% increase in user engagement.

Organization: United software
(avanza innovations)
Tenure: April 2021 – May 2023
Designation: junior Frontend Developer

Responsibilities:

- I convert design mockups from Figma, Sketch, or PSD into fully functional websites using HTML, CSS, and JavaScript.
- I create website designs that are accessible and look good on every device.
- I improve website performance by reducing load times, ensuring seamless interactions, and enhancing front-end code efficiency.
- I enhance user experience by creating interactive, user-friendly interfaces and following best usability practices.
- Working closely with senior developers, designers, and other team members to deliver high-quality software solutions.
- Documenting code, processes, and project updates to ensure clarity and maintainability.

Achievements:

- Improved website load time by 70% by optimizing images, leveraging browser caching, and minifying CSS and JavaScript files.

ACADEMIC EDUCATION:

<u>DEGREE/CERTIFICATION</u>	<u>EXAMINING BODY:</u>	<u>YEAR</u>
Masters of Computer Science (MCS)	Islamia university	2017
Bachelor of Computer Science (Bsc)	Islamia university	2014

CERTIFICATION/ ADDITIONAL SKILLS:

- **MERN STACK DEVELOPMENT** (React.js, Node.js, Express.js, MongoDB, Json, JWT, Middleware)
