01 ABOUT ME

I am Bachelor of Computer Applications(BCA) Degree holder passed out in 2015.

Got training for 2+ years and started first job as Junior PHP developer. Meantime started learning Advanced JavaScript & React JS.

I'm quick learner and love to learn new languages to improve my knowledge & skills.

02 EDUCATION

Bachelor of Computer Applications(BCA)
HNGU - Patan (2012 -2015)

Xipra Technology
Training 2+ Years (2016 - 2019)

03 EXPERIENCE

Jr. PHP Developer Dec 2019 - May 2021
Xipra Technology

- Web backend Development
- REST APIs for Web & Mobile app.

Jr. React JS developer June 2021 - January 2023
Square Root Technology

- My responsibilities are to develop reusable React Functional Components & API integration.
- Projects-
 1. Online Pharmacy : Developed a kind of e-commerce website for Pharmacy using React.js. Implemented product listing, filtering, and cart functionalities.
 2. Sport (Football) academy website : Displays ground location, timing, players & scores.
 3. Community Web App (React installable PWA) : Developed a responsive web app (for mobile devices only) using React.js and Redux Toolkit. It can be installed and used as Mobile App.
