SKILLS

- HTML5
- CSS
- Javascript (ES6)
- Bootstrap
- ReactJS
- Redux
- NodeJS
- ExpressJS
- MongoDB

I am a MERN stack developer looking to work in a growing organization where I can utilize my experience as well as enhance my skills for both mine and organization's development.

RELEVANT EXPERIENCE

WIPRO LIMITED

Mueller Healthcare

Technologies used - ReactJS, Redux, NodeJS, ExpressJS

- This is a web application for healthcare professionals where the management of reports(in form of documents/images/CSV) is done by the practitioners.
- Responsibilities - Building interactive and responsive frontend for the web app using ReactJS and Redux.

HR Management Module

Technologies used - Reactjs, NodeJS, ExpressJS, MongoDB

- This is an in-house application. This module managed the details of all employees, their employment status, any issues related to HR were also logged and managed in this module.
- Responsibilities - Building backend using RESTful API services.

PREVIOUS EXPERIENCE

WIPRO LIMITED

Windows Server Admin

Nov. 2019 - May 2020

- Analyzing and monitoring Server health.
- Creating Windows servers as per client requirements.
- Performing regular server health checkups and periodic reboot activities.
- Performing hardening of OS, mitigating VA points for ensuring server security.
- Fulfilling customer's access related requests.
