LANGUAGES

- English (Fluent)
- Hindi (Fluent)

PROFILE

As a business analyst working closely with clients, I specialize in two key areas: creating insightful dashboards and managing products for the client. Basically, I turn complex data into easy-to-understand visuals that help clients make smart decisions that align with both the bigger picture goals of the business and the needs of the market. By doing this, I help businesses grow and succeed.

WORK EXPERIENCE

Mu-Sigma Business Solutions   July 2023 - March 2024

Business Analyst

- Worked directly with clients to understand their needs and translate them into practical insights and solutions.
- Analyzed data thoroughly to find trends and areas for improvement in client operations.
- Created easy-to-understand dashboards and reports using Power BI.
- Regularly updated and refined dashboards to meet evolving business needs and client feedback.

PG-Tech Mohali   February 2023 - May 2023

Python Training

- Completed a comprehensive Python basics training course, focusing on fundamental programming concepts and syntax.
- Developed understanding of essential concepts such as variables, data types, loops, conditional statements, and functions.
- Gained familiarity with input/output operations and file handling in Python.

PROJECTS

Projects for an American luxury hotel brand

Project 1 - Hotel Booking Insights

- Strategically collaborated with a leading hotel chain to optimize revenue generation through data-driven insights and targeted marketing campaigns.
- Crafted an insightful dashboard to drive strategic decision-making and enhance Hotel performance.

Project 2 - HR-Analytics Dashboard

- Dynamic Dashboard development for employee attrition and insights.
- Tracking turnover rates, reasons for attrition, recruitment trends, and demographics
