WORK EXPERIENCE:

FIRST FLOOR INFOTECH PRIVATE LIMITED | APPLICATION DEVELOPER

Mysuru | March 2022 - March 2024

Highly skilled and accomplished mobile application developer proficient in both Flutter and React Native. With a proven track record of delivering eight successful applications for both Android and iOS platforms, I excel in creating powerful mobile solutions with user-friendly interfaces and robust backend systems.

- Proficient in Dart and JavaScript for Flutter and React Native development
- Extensive experience with Firebase for implementing notifications, event tracking, and Crashlytics
- Advanced knowledge of REST API integration using Postman and Thunder client
- Expertise in state management with Bloc for Flutter and Redux for React Native
- Collaboration with designers using Figma to create seamless user interfaces
- Experience in developing applications with admin panels for comprehensive management

FIRST FLOOR INFOTECH PRIVATE LIMITED | APPLICATION DEVELOPER INTERN

Mysuru | Dec 2021 - Feb 2022

- During my internship, I avidly absorbed concepts in Flutter design and React Native, expanding my knowledge and skills in mobile app development.

SKILL:

- Frameworks/Libraries: Flutter, Bloc, React Native, Redux, React JS, CSS/HTML
- Languages: Dart, JavaScript
- Tools: Android Studio, VS Code, Postman, GitHub, Bitbucket, SourceTree
- Other Skills: Firebase, MoEngage, Facebook SDK, Deep Linking, Payment Integration, Play Console, Map Integration, Sockets Io, bootstrap

PROJECTS:

- **Happy Credit:** As a developer, I led the development of the Happy Credit app, integrating third-party APIs for financial data and implementing a cashback and rewards system to enhance the shopping experience. Collaborating closely with Design and Back-end teams ensured a seamless user journey.
- **Zameen Square (Real Estate Platform):** At Zameen Square, I developed the user interface for a comprehensive real estate marketplace. Responsibilities included creating components such as property listings, search filters, interactive maps, Firebase integration, payment gateway setup, and notification systems.
- **Adair (Headless E-commerce Platform):** Discover the future of online shopping through Adair, our innovative Flutter-based e-commerce app. We provide a frictionless shopping experience for both registered users and guest shoppers, with personalized recommendations and seamless order processing. Our platform offers various payment options, live order tracking, and maps integration, setting new standards for user-centric e-commerce.
- **Ranch Pal (livestock management platform):** Ranch Pal is a dairy farm management app designed to prioritize cow health and streamline operations. Key features include real-time monitoring of health parameters, comprehensive medical and fertility records, and nutrition tracking. The intuitive UI/UX and responsive state management using Bloc ensure an optimized user experience.
- **Comride (Car Rental Application):** Developed driver and rider applications for Comride, a comprehensive car rental platform. Implemented end-to-end features for both drivers and riders, including booking, navigation, payment processing, and feedback. Collaborated with cross-functional teams to ensure seamless integration and functionality.
