437.553.7617 Email | LinkedIn | GitHub **Toronto, ON**

Result-oriented Project Manager dedicated to delivering exceptional products and guiding team success.

- +5 years as PM in Mobile and Web Development, +2 years in iOS development as a software engineer
- Proficient in UIKit, SwiftUI and automation processes using Fastlane and CircleCI
- Skilled in developing and delivering Products from Discovery phase to AppStore Launch

WORK EXPERIENCE

iOS Developer, Team Lead | Mobius   Jan 2022 - current

As an iOS Developer and Product Manager I am taking care of the process of Mobile development from Discovery to app Release

- Upgraded the legacy iOS app to make it 15% faster and more user-friendly by using the latest technology, conducted migration from UIKit to SwiftUI. Ensured a smooth experience for users during the transition.
- Overseen the Delivery process for mid-size level apps using UIKit & SwiftUI, React Native, Flutter
- Developed complex features including Authentication, third-party API connectivity, Data Persistence and Animation. Integrated external APIs libraries, enhancing app functionality and ensuring seamless data exchange between the application and the server.
- Used Agile and Scrum for optimizing development time and costs, which lead to a 20% increase in team velocity and productivity.

Project Manager, Team Manager | Valtech   July 2021 - Sep 2022

As a PM, I oversee project planning, facilitate cross-team collaboration, and maintain communication with stakeholders.

- Orchestrated the platform Migration from legacy to modern stack for a Global Retail Leader, achieving a 7% reduction in costs.
- Directed the Full Lifecycle Development of a mobile application, achieving a 15% faster deployment than initially projected. Increased Product Efficiency through optimized the workload and rigorous discovery & design phases.
- In the role as Team Manager, spearheaded a team reorganization initiative leading to a 20% surge in overall Net Promoter Score.

Project Manager | Competera   June 2020 - July 2021

Owned Project Roadmap and SOW, Guiding Clients to Successful Solution Implementation Within Planned Deadlines

- Enhanced product implementation processes by collaborating closely with cross-functional teams, resulting in a over 10% boost in implementation and customer delivery rates. Assisted customers in enhancing their pricing strategies and developing competitive data analysis skills by providing insights into products and real market cases.
- Collaborated with the development team to enhance the competitive data gathering process by refining machine learning algorithms and input data for training. This effort resulted in a remarkable increase of up to 96% in competitive product matching accuracy.

Project Manager | KarmaCasting   Dec 2017 - Sep 2021

- Collaborated with renowned brands like Mercedes, Volvo, Mars, Sephora, and Staples to craft impactful marketing campaigns and launch their new products successfully.
- Steered the development of new features by conducting extensive customer interviews and continuous A/B testing, resulting in a significant 30% boost in customer satisfaction levels.
