## PROFESSIONAL SUMMARY

Innovative Frontend Developer with 3 years of experience in creating dynamic and intuitive user interfaces using React, Remix, and Redux. Proven track record of optimizing application performance, enhancing user experience, and implementing effective caching and lazy loading techniques. Dedicated to improving my skills in frontend development and design, with a continuous focus on learning and advancing in computer science.

## EXPERIENCE

### *Frontend developer, Blue Beetle January/2023 - present*

- Engineered and styled over 20 UI components based on Figma designs, enhancing user interaction and visual appeal.
- Architected client-side routing and endpoints using Remix, improving application data management and navigation efficiency by 40%.
- Boosted loading speed by 50% through effective data caching with memcached and implementing lazy loading for components.
- Leveraged APIs to dynamically populate components with data, increasing data accuracy and relevance for users.
- Streamlined state management with Jotai, enabling precise local filtering of menu items and reducing state-related bugs by 30%.

### *Full Stack developer, Freelance March/2022 - December/2022*

- Crafted responsive web applications for various clients, delivering tailor-made solutions that enhanced business operations.
- Elevated user satisfaction by designing intuitive interfaces with React and advanced UI libraries, resulting in a 25% increase in user engagement.
- Facilitated clear communication with clients, ensuring project requirements were met and expectations exceeded, leading to a 90% client retention rate.
- Developed projects on Webflow for small businesses, successfully attracting clients and enhancing their online presence.

### *Full Stack developer, CampWander, Russia June/2021 - February/2022*

- Constructed a seamless Single Page Application (SPA) with React, incorporating efficient navigation and custom routes.
- Developed a comprehensive personal account feature using Redux Toolkit and Redux Thunk, significantly enhancing user interaction and satisfaction.
- Designed and implemented a PostgreSQL database, establishing robust connections between the server and database according to REST API standards.
- Transformed the application's UI using Material UI and CSS, resulting in a modern, user-friendly interface.
- Enhanced code reliability and prevented data type errors through TypeScript optimization, reducing runtime errors by 25%.

## EDUCATION

### *Bachelor degree July/2020*

Stavropol State Medical University

## SKILLS

JavaScript, Node.js, Express.js, HTML, CSS, SASS, SCSS, React, React Bootstrap, Vue 3, MUI, Remix, Redux Thunk, Redux Toolkit, Typescript, PostgreSQL, Git, Bitbucket, Sourcetree, Jotai, Webflow, Jira, Postman.
