PROFESSIONAL EXPERIENCE

Business Analyst(Associate Process Leader), *Brane Pvt. Ltd.* — Apr 2023 – present, Hyderabad

- Managed project lifecycle including initiation, planning, execution, monitoring, and closure phases to ensure project success.
- Conducted market research, lead generation, and client meetings to drive business growth and foster client relationships.
- Utilized various elicitation techniques such as brainstorming sessions, surveys, and workshops to gather comprehensive business requirements.
- Translated business requirements into functional specifications and evaluated feasibility and business impacts for different solution options.
- Collaborated closely with Product Owners to refine product backlogs, define acceptance criteria, and conduct regular status meetings.
- Participated in daily stand-up calls to provide updates, address challenges, and ensure project alignment.
- Developed detailed blueprints and data flowcharts to provide a clear roadmap for solution development and implementation.
- Prioritized requirements and coordinated cross-functional teams to ensure timely project delivery.
- Assisted in the creation of user stories, test cases, and documentation to facilitate effective communication and collaboration.
- Provided operational oversight, contributed to business development initiatives, and implemented process improvement strategies.
- Managed smaller projects from requirement gathering to testing, training, and implementation phases, ensuring project success and client satisfaction.

Business Analyst, *Savant Info Labs* — Oct 2021 – Mar 2023, Noida, India

- Analyzed key business aspects to evaluate factors influencing results and synthesized findings into concise presentations.
- Conducted comprehensive requirement gathering, utilizing cases and test plans to drive product definition.
- Demonstrated exceptional listening and interpretative skills to facilitate understanding of issues and drive effective solution designs.
- Proficiently managed scheduling resources and implemented time management strategies to optimize project workflows.
- Collected, analyzed, and interpreted data to produce insightful reports and develop impactful presentations.
- Fostered effective communication channels among stakeholders, bridging the gap between management objectives and development execution.
- Actively participated in cross-functional meetings to ensure alignment and streamline project progress.
- Leveraged strong analytical skills to identify opportunities for process improvement and operational efficiency enhancements.
