EDUCATION

Dawood university of engineering and technology, Karachi, Pakistan
Bachelor's of engineering in Computer system engineering

11/2018 – 2010/2022

PROJECTS EXPERIENCE

Nourish 2 Rise Nutrition Consulting Application (06/2022 – 08/2022)
Project summary Nutrition consulting involves personalized guidance provided by trained professionals to help individuals optimize their dietary habits and achieve specific health and wellness goals. Consultants assess clients' nutritional needs, create customized meal plans, and offer education on balanced diets, aiming to improve overall health, manage weight, address dietary restrictions, and enhance performance. Through a collaborative approach, nutrition consulting empowers individuals to make informed choices for sustainable and healthier lifestyles.

E-commerce Application (06/2022 – 08/22)
Project summary As the front- end UI designer for an E-commerce application, the focus was on creating a user-centric design that optimized navigation, product display, and checkout processes. I spearheaded the seamless integration of rest APIs within the app. This vital role ensured real-time synchronization of product listings, pricing, and inventory data. By leveraging my technical expertise, I connected the front-end and back-end systems, guaranteeing accurate and up-to-date information for users.

Fitness Application (02/2023 - 04/2023)
Project summary The Fitness Application is a cutting-edge mobile platform developed using React Native, designed to empower users to achieve their fitness goals with ease. My pivotal role as the lead Front-end UI Designer and API Integration Specialist was instrumental in creating a visually appealing and highly functional fitness experience. This included customizable workout plans, goal tracking, and performance analytics, enabling users to achieve their fitness objectives effectively.

Testo burger Application (06/2023 - 08/2023)
– https://play.google.com/store/apps/details?id=com.testoburger

Pet Grooming Appointment Application (09/2023 – 10/2023)
Project summary The Pet Grooming Appointment Application for consultancy related to diseases is designed to facilitate pet owners in scheduling appointments for veterinary consultations. The platform offers a user-friendly interface for booking appointments, real-time availability updates, and secure authentication. It enables efficient communication between pe t owners and veterinary professionals, providing a convenient and reliable means to seek expert advice and address pet health concerns.

SKILLS

Application Development
- **React Native**
- **JavaScript**
- **Aws Agile Methodologies**
- **Rest api integration**
- **Azure**
- **Flutter**
- **Git**
- **Unit testing**
- **Biometric authentication**
- **Creative problem solving**
- **Node.js Php**
- **coding standards**
- **Python**

Web Development
- **React.js**
- **JavaScript TypeScript**
- **Angular Vue.js Next.js C**
- **Html Css BootStrap**
- **Wordpress**
- **Ajax**
- **Json/Xml**

Databases
- **MS SQL Server,**
- **MySQL**

CERTIFICATES
- **Java Programming(11/2022 – 12/2022)**
- **JavaScript(08/2022 – 09/2022)**
- **C Programming (06/2019 – 08/2019)**
