### PROFILE SNAPSHOT

As an **MCA** graduate with a strong programming foundation, I am Eager to leverage academic knowledge, hands-on experiences, and a collaborative mindset to drive organizational success while continuously enhancing personal and professional skills.

### PROFESSIONAL SKILLS AND INTERESTS

- Microsoft Power BI (Visualizations, Modelling, Power Query)
- MS EXCEL and MS Office Suite
- MYSQL
- Basics of Python
- HTML, CSS
- AWS + DevOps

### SOFT SKILLS

- Analytical Thinking
- Self-Motivated
- Problem Solving
- Optimistic
- Team player

### EDUCATION

**Master of Computer Applications (7.1 CGPA) 2022.** Sastra University (Thanjavur, TN, India)

**Bachelor of Science (6.6 CGPA) 2020.** Annai College of Arts and Science (Kumbakonam, TN, India)

### COURSE & CERTIFICATIONS

- AWS+DevOps ([CERTIFICATE](#))
- Verizon Cloud Platform Virtual Experience Program. ([CERTIFICATE](#))
- Introduction to Excel([CERTIFICATE](#))
- Data analysts Toolbox

### PROFESSIONAL SKILLS DEMONSTRATED (INTERNSHIP)

**EXPOSYS DATA LABS – Web Developer (From 23.03.2023 to 23.09.2023)**

- Design and Develop Multipage Responsive Website.
- During this Project I used HTML to create a web page and CSS for styling the webpage.

### RELEVANT PROJECTS

#### Telecom Customer Churn Analysis using Power BI

In Power BI, conducting customer churn analysis involves examining various customer data points, such as transaction history, purchase frequency, and interactions with the business. By thoroughly analyzing this data, businesses can uncover patterns and trends that reveal insights into customer behavior. I recently created a Customer Churn Analysis Dashboard in Power BI to offer actionable insights into customer behavior and identify factors contributing to churn. Throughout the project, I utilized Power BI to design visually appealing data representations and dashboards. Additionally, I employed Power Query to clean and preprocess the data, ensuring its accuracy and suitability for analysis..

## **AWS PROJECT**

**(CI/CD)** Code Deploy and Code Pipeline.

### **OTHER RELEVANT INFORMATION**

**Passport Number** - T4593937

**Visa Status** - Visit Visa

**Languages** - English and Tamil.

**Achievement** - obtained five-star ratings in SQL on HackerRank.
