📄 PROFILE SUMMARY

- Achievement-driven professional with nearly 5+ years of diverse experience in designing, implementing, testing, and maintaining robust web applications across various industries.
- Proven excellence in writing Backend code and building efficient PHP modules along with designing, and developing applications in accordance with established standards.
- Rich exposure in leveraging the power of the Laravel framework to build scalable and efficient applications.
- Excellent expertise in optimizing code for enhanced performance, employing systematic refactoring techniques to reduce page load times and improve overall application responsiveness.
- Keen analyst in utilizing key design patterns such as MVC, Singleton, and Facade, ensuring robust and maintainable code structures for scalable applications.
- Proficient in fine-tuning SQL queries and optimizing database performance, ensuring efficient data retrieval.
- Demonstrated expertise in implementing secure authentication and authorization mechanisms, including Laravel Passport and middleware configurations.

📁 PROFESSIONAL EXPERIENCE

Successive Technologies

Senior Associate Engineer

04/2022 – present | Noida

- Showcased excellence in **Laravel Framework-based** project, addressed challenges presented by the initially intricate architecture and workflow, successfully streamlining every aspect of the project.
- **Managed the server-side aspects** and meticulously structured the database, ensuring optimal performance and reliability.
- **Enhancing the overall security posture** and resilience of the organization against evolving cyber threats.

Tech Stack: Laravel, JavaScript, Laravel Lumen, Object-Oriented Programming (OOP), PHP, SQL, Web Development, HTML5, Cascading Style Sheets (CSS), jQuery, MySQL, AJAX, Git, Linux, Docker

ProProfs(Bhatia Software Technologies)

PHP Developer

06/2021 – 04/2022

- **Acquired proficiency in the CodeIgniter framework**, demonstrating the ability to develop and maintain websites using this technology.
- Applied object-oriented programming principles (OOPs) within the CodeIgniter framework, enhancing code organization and scalability.

TECHNICAL SKILLS

- HTML
 - CSS
 - jQuery
 - Bootstrap
 - JavaScript
 - Core PHP
 - MySQL
 - CodeIgniter Framework
 - Linux
 - Laravel
 - Curl
 - Docker
 - Rest API
 - GIT
 - Ajax
 - Node JS
- Successfully contributed to CodeIgniter-based projects such as **ProProfs project**.
 - Implemented a diverse range of web-based products utilizing PHP, MySQL, Ajax, and JavaScript.
