PROFESSIONAL SUMMARY

Experienced Mobile App Developer Developer with 2.7+ years of experience in creating high-quality, scalable mobile applications. Proficient in leveraging React Native frameworks, JavaScript, and associated technologies to deliver robust and intuitive user interfaces across iOS and Android platforms. Hands-on experience in React.js as a Web Developer.

EXPERIENCE

Software Developer

Neuronimbus Software Services P. Ltd

📅 10/2021 - Present   📍 Gurugram

Worked on a larger-scale application using React native and Redux resulting in a Smooth UI and a lot of reusable modules in the whole app. I have also worked in an E-commerce app which includes a store page, then products inside the store and ordering items with the implementation of the razor pay payment gateway.

- Developed whole app from scratch
- Implemented REST APIs to connect the application to the backend services.
- Optimized REST API calls to reduce load times resulting in a 15% increase in page speed.
- Collaborated with cross-functional teams to ensure timely delivery of project milestones.
- Debugged and resolved application issues to improve user experience.

Customer Service Associate

Amazon

📅 06/2020 - 12/2020   📍 Noida

Need to Communicate To customers on call (Voice Support) regarding their products or shipment or anything on Amazon India Site

- Win twice associate of the week
- Make sure users or customers always get the best solution regarding their problems.

EDUCATION

Bachelor's of Computer Application (BCA)

Guru Gobind Singh Indraprastha University

📅 2017 - 2020   📍 New Delhi

STRENGTHS

💡 **Team player**
Collaborated with cross-functional teams to develop and deliver high-quality products.

🚩 **Attention to detail**
Ensured code quality and accuracy through rigorous testing and review processes.

SKILLS

React native   React JS   TypeScript

Javascript   Firebase   REST API   Git

Jira   Razorpay (Payment Gateway)

Redux   Android Studio

PROJECTS

Lexon

📅 12/2021 - 03/2022

The application serves as a secure platform to upload all official documents required for the company and its client's reference. The application will also have features that will help LEXON management and employees connect and communicate effectively regarding day-to-day needs, requirements and announcements

Happy Hour

📅 07/2022 - 02/2023

E-commerce App for delivery of liquor inside the store. Users can order liquor before getting into the restaurant or bar and then show their order id and call the whole bottle or ml mentioned in the app on the table.

MY KFC

📅 03/2023 - 10/2023

Connect with employees who work at different levels of the organisation. Share their thoughts, and get updates about the organisation's news and business, Users take part in polls and quizzes and get engagement points to earn different rewards. On the app, keeping up with the employees who matter most is easy. Engage, enjoy and do more together

STARBUCKS - PARTNER APP

📅 12/2023 - Present

If you want to open a Starbucks resturant then the employee will fill in all the details of that site in the app and pass it to other roles and the role will decide whether to pass it or not, it contains multiple forms and role access level
