SUMMARY

4+ years of experience as a React-Native developer specializing in mobile app development, with additional expertise in front-end development and web development. Lead dynamic React projects through all stages of the development cycle, demonstrating proficiency in React, Firebase, JavaScript, Redux, CSS, Codeigniter, and Cordova. Strong background in project management and customer relations, recognized for quick learning and reliability as a team player.

TECHNICAL SKILLS

Programming languages: React Native, JavaScript, HTML, CSS, reactjs, redux, bootstrap, Web Services, REST APIs, ES6, ES7

Libraries and Tools: Redux Thunk, Android Studio, Git, Linux, google Play Store, App Store, Vscode, Google Maps, FireBase, RazorPay, CI/CD

WORK EXPERIENCE

Software Developer

Chetu India , Noida   *02-2022 - 04-2024*

- Implemented Redux Thunk and Redux Toolkit for state management in React applications, enhancing scalability and maintainability.
- Integrated BigBlueButton for real-time video conferencing and collaboration features, ensuring seamless communication and interaction within the project.
- Developed Android and iOS applications using React Native and JavaScript, implementing Google sign-up, Facebook sign-up, and Google Maps integration.
- Leveraged APIs and SDKs to enable seamless authentication and map functionality, enhancing user experiences across platforms.
- Utilized Firebase in React Native projects, focusing on integrating Firebase's Real-time database and utilizing Firebase Messaging for push notifications.
- Set up and manage real-time data synchronization between the app and the database, ensuring seamless and responsive user experience.

Software Developer

Media Guy, Prayagraj   *02-2020 - 02-2022*

- A skilled software engineer specializing in mobile app development for iOS and Android platforms.
- Implemented key features including Google, Facebook, and Telegram login, gallery and camera launches, and drag-and-drop capabilities.
- Proficient in integrating date picker and calendar functions and managing user authentication with Firebase database.
- Adept in banking app development, managing profiles, opening various account types, processing loan requests, and implementing deposit calculations using React Native and JavaScript.
- Developed dynamic websites using the PHP framework CodeIgniter, focusing on creating user-friendly admin panels.
- Managed courses and subjects within the admin interface, ensuring seamless content management and site functionality.
- Successfully implemented dynamic features for school websites, enhancing user experience and site performance.

PROJECTS

- **Hospital management Mobile App** , As a React Native developer with experience in hospital management projects, I specialize in developing mobile applications for various healthcare needs. My expertise includes appointment scheduling, clinic management, ERP packages, inventory management, and other functionalities crucial for efficient hospital operations. My work ensures seamless and user-friendly interfaces, enabling healthcare professionals to manage their facilities effectively.

- **Cab Management Mobile App**, As a developer for a cab management system, I focus on ensuring efficient operations and excellent user experiences. My expertise includes user management and driver management, ensuring smooth interactions between users, drivers. I also specialize in booking management, route optimization.

- **School Management Mobile App**, As a developer for a school management project, I specialize in integrating third-party libraries like BigBlueButton for virtual classrooms. My focus areas include managing student attendance, maintaining student details, handling course purchases, scheduling classes, and integrating video call functionality. I ensure that the platform is user-friendly and provides a seamless experience for both students and teachers, facilitating efficient communication and learning.

- **E-Commerce Website**, For the e-commerce platform, I focus on developing a secure and efficient online store that allows users to browse products, add them to their cart, and make purchases. I integrate payment gateways to facilitate secure transactions and ensure that the platform is responsive across different devices. My goal is to create a dynamic and engaging website that meets the needs of both the school community and online shoppers.

- **School Website**, As a developer for a dynamic school website and e-commerce platform, I specialize in using the PHP framework CodeIgniter. For the school website, I focus on creating dynamic pages that showcase the school's information, including courses, faculty details, and upcoming events. I ensure that the website is easy to navigate and provides a user-friendly experience for students, parents, and faculty members.

EDUCATION

Nehru Gram Bharati University(NGBU)   **Prayagraj, Uttar Pradesh, INDIA**
  B.Tech in Computer Science and Engineering (CSE)

Uttar Prades University   **Prayagraj, Uttar Pradesh, INDIA**
Intermediate - LBST Inter College
