Other Tools & Technologies	NPM, Angular CLI , Gulp
Bug Tracking tools & Database	Jira, ALM
Methodologies	Agile
Versioning Tools	GIT

PROFESSIONAL EXPERIENCE

Software Engineer Consultant || TalentMicro

April 2024 - Present

HRIS Project

Dubai, UAE

- Developed and maintained complex reactive forms using Angular 17, enhancing user interaction and data entry efficiency.
 - * Utilized FormArray, FormControl, and FormGroup for dynamic form creation and management.
 - * Implemented custom form validations and error handling to ensure data integrity and user-friendly feedback.
- Integrated forms with RESTful APIs to enable seamless data exchange between the client-side application and back-end services.
- Leveraged NgRx Store for state management, ensuring a predictable and maintainable application state.
 - * Implemented actions, reducers, and selectors to manage application state effectively.
- Collaborated with designers to build user-friendly and responsive forms, improving the overall user experience.

Product Engineer || Tata Consultancy Services(TCS)

Dec 2021 – 23 Feb 2024

BaNCS Digital

Kochi , Kerala

- Development and implementation of complex web and mobile software applications for retail banking, for a leading Europe based Bank

Responsibilities :

- Develop applications meeting the user requirements.
- Write extensive HTML, CSS/SCSS and JavaScript/TypeScript code to build dynamic pages using angular.
- Develop reusable components and Implement front-end validations and functionalities
- Develop SCSS layouts using GRID , Flex , Bootstrap

- Work on Web Service calls , View Logic, Data model and JSON parsing using JavaScript/TypeScript.
- Perform code reviews and participate in quality assurance
- Experience with developing the angular application from scratch using Angular-CLI
- Ensured cross-browser compatibility and executed unit-tests for business rules, maintaining clean and organized front-end code.

Web Developer || Letkits Proprietorship Firm Incorporated

Dec 2020 – Oct 2021

Web Development

Ernakulam, Kerala

- Led the development of the company's website and web applications using Angular, ensuring a user-friendly and responsive interface.
- Collaborated with cross-functional teams to gather requirements and implement features that enhanced the overall user experience.
- Actively stayed updated on industry trends, incorporating HTML5, SCSS best practices, and JavaScript innovations to enhance the technology stack.
- Resolved technical challenges promptly, debugging and optimizing code for improved performance.

EDUCATION

Masters of Technology in Signal Processing

APJ Abdul Kalam Technological University, Kerala

CGPA: 8.4

2018-20

Bachelor of Technology in Electronics & Communication Engineering

Cochin University of Science & Technology, Kerala

CGPA: 8.18

2014-18

ACHIEVEMENTS & CERTIFICATIONS

- **Best Team Award** -Acknowledged for exceptional contributions leading to the team's success within the organization. *TCS 2023*
