ZHENDRE

SOLUTIONS AUX CONDITIONS EXTRÊMES

ABOUT ZHENDRE

REFRIGERATED CONTAINERS MILITARY AIR CONDITIONING - CONTAINERISED SOLUTIONS

Web Zone Electro Mechanical Works LLC is the authorised distributors of Zhendre, Refrigeration & Air Conditioning. Zhendre have over the 50 years of service to the defence sector in different countries. Its activity covers two domains:- Domestic air conditioning for residential purposes and small businesses, Refrigeration and air conditioning for the Defence Sector. With over one hundred employees, ZHENDRE has a turnover of approximately 20 million euros of which 40-45% is gained through export. In the scope of activity relative to the Defence Sector, Zhendre participates in large international exhibitions, notably EUROSA-TORY in Paris, DSEI in London, IDEX in Abu Dhabi.

Although the French Army is obviously Zhendre's biggest client, over fifteen foreign armies are also clients and notably the British Army, the Belgian Army, the Swiss Army, the Swedish Army, the Algerian Army, the Spanish Army, the Portuguese Army. Zhendre also supplies equipment to the Peace Keeping Missions of the United Nations worldwide.

The particularity of Zhendre in the Defence Sector is that it offers its clients outstandingly robust material which can function in outdoor temperatures of up to 55°C. The company has its own climatic test chamber thus permitting the verification and validation of the equipment's pronounced performances and in particular its proficiency at very high temperatures.

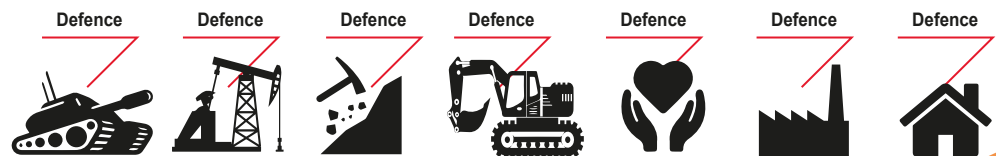

Solutions To Extreme Conditions

Since 1955 ZHENDRE is present in the field through two complementary offers:

- The design, the manufacture and the distribution of refrigeration and air conditioning systems.
 - The design, the manufacture and the distribution of containerized solutions.
- We develop solutions which meet logistic, comfort and support requirements in sensitive areas at the same time maintaining mobility.

OUR SERVICE SECTORS

ZHENDRE « TAILOR MADE» INDUSTRY

We design, develop and manufacture products which meet specific and extreme requirements. We produce and deliver worldwide, material that is specially develop for reliable operation in extreme climatic conditions and under extraordinary physical constraints. Our products are mainly used by armies in Europe, Africa, the Maghreb region; large petroleum group, peace keeping missions; numerous NGOs....

ZHENDRE - A COMPLETE OFFER

We can meet all your material requirements in the field by proposing a complete "turn-key" solution.

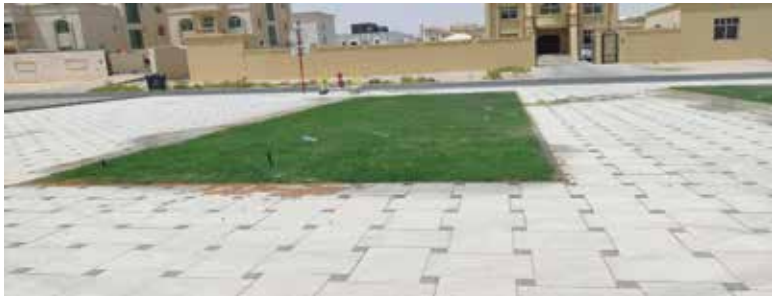

In collaboration with our reliable business partners, we can supply the material necessary to equip a complete camp; to fit out a life camp or any other material necessary for life support in the field. Our network of installers worldwide allows for an efficient and rapid response.

ZENITHAIR - A BRAND WHICH HAS APPROVED ITS WORTH

For over 40 years, the ZENITHAIR brand is considered a quality product, coveted mainly in zones of extreme conditions where reliability is a priority. Due to its excellent reputation, especially in the African continent, ZENITHAIR has dominated several prestigious markets such as banks, telecom companies, mining companies, government buildings and high standing residential buildings. From window to industrial monobloc units as well as split systems, ZENITHAIR proposes a large range of air conditioning material which can be adapted to the majority of residential and tertiary requirements.

OUR PARTNER

ORGANIZATION CHART

AUTOMATIC FIRE SUPPRESSION SYSTEMS

Rotarex Fire Suppression Systems can be installed in a wide range of equipment, including:
Buses & Coaches - Trucks - Heavy Equipment - Marine Engines - Generators - Cranes - Trains

Rotarex offer a complete detection & suppression system pre-engineered for vehicle engines. The easy-to-install system detects and extinguishes fires quickly and safely. Automatic fire suppression systems are mandatory on school buses as per the guidelines of UAE transport authorities. Hundreds of school buses across the UAE have already been installed with Rotarex automatic fire suppression systems, and it is an OEM supplier as standard equipment in all Ashok Leyland school buses sold in the UAE.

Benefits

- Most compact system in the world
- Able to protect engine compartments of up to 4m³ with only 4 litres of agent
- Protects passengers and valuable equipment
- Easy/flexible installation
- Quick & effective suppression
- Highly dependable: no electricity (FireDETEC tubing technology)
- Highly economical
- A choice of eco-friendly suppression agents
- A choice of detection systems
- Optional dashboard warning unit also available

Automatic FIRE Suppression System

The T Series is suitable for a wide variety of applications, including:

- Vehicles • Boats • Caravans • Generators • IT Server Cabinets
- Electrical Cabinets • Farming & Agricultural Equipment • Earthmoving Machines
- Industrial & Manufacturing

Benefits

- **Universal use:** can protect almost any space
- **High cost-effectivity:** zero maintenance, long working life
- **No external storage cylinder:** whole system contained inside protected space
- **Clean & effective extinguishing agent:** Tried & tested HFC-227ea/HFC-236fa gases
- **Fully independent:** system operational 24/7 without any power supply
- **No maintenance:** required during entire working life means zero maintenance costs
- **Long working life:** 5 -10 years depending on application
- **No harm:** to protected enclosure and passengers when discharged
- **Easy installation:** no training or expertise required
