## Software Tester / QA Analyst

@ rifad7414@gmail.com ☎ +971545113542 📍 Dubai, United Arab Emirates [in Rifad Thumbath](#)

### SUMMARY

---

Results-driven individual with a Bachelor of Computer Application degree and 2 years of extensive experience in manual testing. Proven track record of identifying and reporting bugs, ensuring software quality, and maintaining documentation. Exceptional communication and collaboration skills, enable effective cross-functional team coordination. Seeking opportunities to apply expertise in QA engineering and software testing to contribute to the success of an organization.

### EXPERIENCE

---

#### COGNIZANT TECHNOLOGY SOLUTIONS

11/2020 - 11/2022

Jr Software Engineer

- Conducted manual and functional testing of software applications and websites using industry-standard methodologies.
- Collaborated with cross-functional teams to ensure the quality and reliability of the software.
- Maintained detailed documentation of test cases, procedures, and test results.
- My strong written and verbal communication helped in sharing project updates, test progress, and issues through email.
- Monitored and evaluated front-end and back-end systems to ensure seamless integration and functionality.
- Demonstrated adaptability and quick learning in a fast-paced work environment.
- Followed strict timelines and effectively managed time to meet project deadlines.
- Actively listened to requirements, feedback, and instructions to deliver high-quality results.
- Maintained a proactive approach and showed attention to detail in all testing activities.

### PERSONAL SKILLS

---

- Java Basics
- SQL Basics
- Adaptability
- Time Management
- Effective Communication
- Analytical Thinking
- Attention To Detail
- Comprehensive
- Teamwork

### TECHNICAL SKILLS

---

- **Automation Testing:** Proficient in performing automation testing with Selenium WebDriver using Java language.
- **Testing Types:** Strong knowledge in functional, regression and performance testing.
- **Collaboration:** Ability to work closely with other QA testers and project teams.
- **Test Design and Architecture:** Proficient in test design, architecture, and scripting. Experience in developing comprehensive test cases and test scripts.
- **Testing Methodologies:** Knowledge of software test life cycle activities. Familiarity with Agile methodologies.
- **Analytical Skills:** Strong analytical skills for effective problem-solving and defect identification.
- **Client Interfacing:** Effective client interfacing skills, ensuring clear communication and understanding of client requirements.

## EDUCATION

---

- **SOFTWARE TESTING SPECIALIST** 09/2023 - 01/2024  
Luminar Technolab, Calicut
- **BACHELOR OF COMPUTER APPLICATIONS** 2017 - 2020  
Surana College, Bangalore
- **HIGHER SECONDARY EDUCATION** 2016 - 2017  
International Indian School, Buraidah

## MINI PROJECTS

---

- **REDIFFMAIL REGISTRATION PAGE:** Performed Automation testing on Rediff registration page using Selenium WebDriver and JUnit to input data, selecting dropdown etc.
- **FACEBOOK LOGIN PAGE:** Performed Automation testing on Facebook Login page using Selenium WebDriver, TestNG and Apache POI to input multiple username and passwords.
- **AMAZON SEARCH FUNCTION:** Performed Automation testing on Amazon website with the help of Action class to perform various mouse and keyboard actions.

## PROJECT

---

### AUTOMATION TESTING FOR RESUME.COM:

- **Description:** Implemented a comprehensive automated testing framework for the resume.com website, ensuring robust functionality and a seamless user experience. Employed Selenium WebDriver, TestNG, and Page Object Model (POM) design pattern in Java to conduct thorough testing.
- **Technologies Used:** Selenium WebDriver, TestNG, Java, Page Object Model (POM), AutoIt (for file upload testing).
- **Key Achievements:**
  - Designed and developed a scalable and maintainable automation framework using Selenium WebDriver and TestNG.
  - Implemented Page Object Model (POM) for efficient and modular test script development, enhancing code reusability and readability.
  - Executed end-to-end functional testing and user acceptance testing to validate the proper functioning of website elements.
  - Ensured the correctness of interactive components, such as clickable buttons, accurate page navigation, and responsive design.
  - Integrated AutoIt to simulate file uploads, verifying the seamless handling of file attachments on the resume.com platform.
  - Prepared detailed test cases and test report to ensure the quality and efficiency of the website.
  - Detected and reported bugs using detailed bug reports.
