[linkedin.com/in/ahmad-ahmad-a34670274](https://www.linkedin.com/in/ahmad-ahmad-a34670274)

Experienced Senior ASP.NET Core Backend Developer skilled in C#, .NET Framework/.NET Core, and API development. I specialize in building scalable, secure server-side solutions with clean, efficient code. I have a strong background in problem-solving and collaboration. Holding a Bachelor's degree in Information Technology Engineering from Damascus University, I am eager to contribute my expertise to innovative software development projects.

EXPERIENCE

2024 TO PRESENT

BACK-END DEVELOPER (ASP.NET CORE)

WARSHATEC, FREE ZONE, DAMASCUS, SYRIA

- Contributed as a member of the coaching program, helping my coaches find new ways to improve their technical and soft skills.
- Created documentation and processes to assess the company's back-end employees' efficiency.

2021 TO 2023

BACK-END DEVELOPER (ASP.NET CORE)

IDS, DAMASCUS, SYRIA

- Design an application architecture with microservices on the back end. Made changes to the deployment pipelines to add extra steps using configuration files read by GitLab.
- Ensured code quality, granting the security of the authentication flow. I also assured the client's deadlines for the project were met.

2019 – 2021

BACK-END DEVELOPER (ASP.NET CORE)

CLOUD SOFT, DAMASCUS, SYRIA

- Developed efficient Python code to scrape data from various websites using the Scrapy framework.
- Designed and implemented data extraction pipelines to transform and store scraped data.

2/2019 – 9/2019

BACK-END DEVELOPER (ASP.NET CORE)

SMART SOFT, DAMASCUS, SYRIA

- Held various presentations to help junior colleagues improve their knowledge about .Net.
- Technologies: .Net, API, Clean Architecture, Git, Oracle, ASP.Net Core 2.2 + 6.0.
