Personal Statement

Enthusiastic and motivated web developer with a strong foundation in creating high-quality web-based solutions. Proficient in JavaScript, HTML, CSS, React JS, and Next JS, and experienced in full-stack development using the M.E.R.N stack. Detail-oriented and driven by problem-solving challenges, with a proven track record of successfully delivering projects. Eager to contribute my skills to a dynamic team and committed to continuous learning and growth in the web development field.

Projects

Project 1: Job Listing Website

URL: <https://frontendjoblistingwebstite.onrender.com>

- Developed a comprehensive job listing platform using React for the frontend.
- Implemented search, filter, and application features for users.
- Focused on user experience with intuitive design and navigation.

Project 2: Online Live User Management System

URL: <https://full-stack-supabase-user-management.onrender.com>

- Frontend built with React JS, utilizing functional components and hooks (useState, useEffect).
- Backend services provided by Supabase for user data management and authentication.
- Designed a user management system with intermediate React knowledge.

Project 3: User Authentication Interface

URLs:

- <https://loginpagenext14-6jeq.vercel.app>
- <https://frontend-react-js-login-page.vercel.app>
- Created registration and login interfaces using React JS and Next JS.
- Utilized Axios for backend API communication.

- Built a RESTful API with Node JS and Express JS, and used MongoDB for data storage.
- Deployed on Vercel for enhanced performance.

Project 4: Contact Management System

URL: <https://frontendcontactmanagementsystem.onrender.com>

- Designed and developed using Vite and React for speed and optimization.
- Implemented features for adding, editing, and deleting contacts.
- Ensured responsive design for compatibility across various devices.

Project 5: Bookstore Application

URL: <https://frontend-bookstore-react.onrender.com>

- Developed a bookstore application frontend with React.
- Created a catalog system for browsing and purchasing books.
- Emphasized user interface design and smooth user experience.

Project 6: Crypto Currency Price Checker

URL: <https://cryptopricechecker.onrender.com>

- Built a real-time cryptocurrency price checker using React.
- Integrated APIs to fetch and display live cryptocurrency prices.
- Designed a clean UI for efficient price tracking.

Project 7: File Management System

URL: <https://fire-c392.onrender.com>

- Created with React for the frontend and Firebase for the backend.
- Enabled file and folder creation, secure storage, and user authentication.
- Ensured data protection and smooth user experience.

Project 8: Quiz Application

URL: <https://mrkiksyquizapp.netlify.app>

- Developed an interactive quiz application with React.
- Implemented features for creating and taking quizzes.
- Hosted on Netlify for seamless user experience.

Project 9: E-Learning Platform for LEAM Consulting

URL: <https://elearningwebsite-bhj09s3wn-mrkiksys-projects.vercel.app>

- Built an e-learning platform with React and Next.js.
 - Implemented course management, user authentication, and interactive features.
 - Focused on delivering an engaging learning experience.
-

Work Experience
