## SOFTWARE DEVELOPER

A dedicated software developer skilled in programming languages and problem solving. I excel at crafting engaging and responsive web interfaces, with a strong grasp of Java and Oracle SQL, I ensure seamless data integration and dynamic content.

---

## SKILLS

Microsoft Office	Programming Languages (Java, C++, JavaScript, Visual Basic,	Figma
Public speaking	Flutter, PHP, Oracle SQL, HTML, CSS, Bootstrap, React, UI, UX)	GitHub
Excellent time management skills	Teamwork	Trello
	Individual Work.	Work under pressure

---

## EXPERIENCE

### Meta Company

October 2023 – Present

#### React.js Basics Course

My journey to master React.js has been a thoughtful progression, guided by Meta Company's thoughtfully crafted online courses. In these engaging modules, I've explored the nuances of component architecture, the art of state management, and the intricacies of the Virtual DOM. This learning path, characterized by its careful structure, not only equipped me with a robust theoretical understanding but also provided me with the practical wisdom to seamlessly apply React.js principles in real-world scenarios.

### Orange Company Jordan

July 2023 – October 2023

#### Flutter Developer Internship

The Orange Summer Challenge provided an immersive exploration of AI, IoT, CAD/CAM, and mobile development. Through workshops and hands-on experiences, I gained practical insights into AI applications, the potential of IoT, CAD/CAM design, and mobile app development using Dart and Flutter. This comprehensive program enriched my technical skills and adaptability for emerging technologies.

### Era-Tech Company Jordan

July 2023 – September 2023

#### Front-end Developer Internship

Collaborated with senior developers to implement responsive web designs using HTML, CSS, Bootstrap, and JavaScript, contributing to the enhancement of user experiences on client websites.

### Freelancer

April 2021 - 2023

#### Frontend & UI/UX

Conceptualized and created a personal portfolio website showcasing projects using HTML, CSS, JavaScript, and Bootstrap, highlighting technical skills and creativity.

## EDUCATION

**Hashemite University**

**January 2024**

Bachelor of Computer Science

GPA: 3.28

---

## PROJECTS

### **A-Academy**

My first project done in 1 million Jordanian coders initiative

### **Dental Clinic**

Project done in one of the web design courses in university.

### **Tefli**

Project done with a mobile application in competition orange summer challenge OSC 2023.

### **iPortfolio**

Project done as practicing my overall skills in front-end (React.js not included).

### **Rehleti**

Full-stack project using ASP.net core MVC (Graduation Project).

### **QuranForAll**

Full-stack project using Node.Js and MongoDB. (Latest Project)
