# Establish Your Exclusive Off-Shore Facility in India

**CELEBRATING 29th year — 1994 - 2023**

G.T. Enterprises popularly known as GTE is established during 1994. Keeping abreast of new developments in the IT industry, GTE in the last two decades has been instrumental in introducing New and Innovative Technologies to the Indian market. GTE's core business is FOSS, Virtualization, Storage, Cloud Computing, Big Data, HiPC, Enterprise Solutions & Customized Software Development. GTE has state-of-the-art facility at Bengaluru and Mysore. GTE is certified partner for Amazon Web Services, VMWare, EMC, Citrix, IBM, Red Hat and SuSE Linux, NVIDIA, PGI, Intel, Qt & many more, actively promoting their products, professional and training services.

## GTE's Business Model

**Sales** ➡ **Services** ➡ **Training** ➡ **Gratified Customer**

**"Have your Off-Shore Facility in India"** is an initiative focused on offering excellent services for small and medium overseas companies to set up their operations in India. Wherein GTE will provide all services and support right from Infrastructure, Human Resources, Technical Services, Training, Induction and Statutory compliances required for an off-shore facility to engage in development, support & services. This model is unique & flexible whereunder an off-shore company can establish its off-shore development, support and services facility without any hassles as GTE would take care of all compliances. Client would get ready, customized facility for an off-shore establishment ready to start operations **"plug and play"**. This offers tremendous opportunity to companies wanting to have an operational facility in India. This enables a client to have a full fledged facility capable of development of products, delivering support and services to anywhere in the world based out of India. This model is very cost effective and hassle free. GTE would take care of the following Services :
