Barvaliyahardik157@gmail.com

Motivated full-stack developer skilled in data structure, algorithm optimization, and software architecture. Expertise in developing analytics solutions, automation, and negotiating technical challenges.

EXPERIENCE

Codemenschen GmbH, Germany (Remote) — *Senior FullStack Engineer*

May 2022 - Present

- With expertise in ReactJS, React Native, .Net, and Soap, I excel in dynamic UI development. Prioritizing code quality, I conduct Jest testing, specialize in UI Prototyping, and use Azure for scalable solutions. Proficient in Web API, DevOps, SQL Server, and Github, I enhance projects with strong communication and project management skills.

- Completed lazy loading and code splitting techniques, do Brainstorming for new techniques, resulting in a 45% improvement in initial load time and 60% reduction in time-to-interaction for a data-intensive React application.

- As a seasoned Web Developer, my accomplished hands-on mentoring spans Full Stack Software Development, emphasizing Frontend and Business leadership. Our expertise encompasses a comprehensive range of technologies including Npm, Node.js, Visual Studio, Xcode,Android Studio, Adb, RabbitMQ, C, Microservices, Data Structures,API, Elastic Search, MongoDB, Google Cloud, Dashboard,Bookkeeping, MySQL, NoSQL Databases, Data Collection Implementation, Data Security, Jquery, HTML5, Cloud Technologies,Apache, Kanban, Scrum, PHP, Nginx, OOP, Front-End,Troubleshooting, Vue, MVC, Python.

- Succeeded responsive design for a mobile-first approach, added Security Utilities, Consolidated to a 25% increase in mobile user engagement and Engineered mobile conversion rates.

Broadsy Technologies, Gujarat IN — *FullStack Engineer*

January 2018 - May 2022

- web development of multiple role based web applications And created common components for different roles.

- Outperformed new tasks provided by the client and delivered on time with 100% client satisfaction.

TECHNICAL SKILLS

Node.js / Serverless / GraphQL / Apollo / Micro Services Rest API
JavaScript / TypeScript / JSON
 AWS / Lambda / AWS IOT CORE / DynamoDB / AWS Amplifier / AWS APIGateway / SES / Secret Manager
Jest / Enzyme / Mocha / Chai
 Database / SQL / NoSQL / Postgres
CI / CD / Docker / PM2
 React.js / Next.js / Flux / Redux
 Bootstrap / AntD / MUI
Git / GitLab / Version Control
Webpack / Babel

SOFT SKILLS

Agile Development

Problem solving

UI/UX Design Principles

Code Quality & Performance

Learning and Adaptability

Product Management

Programming, CI/CD

SDLC

LANGUAGES

English, Hindi, Gujarati.

PROJECTS

Southwest Gas (Portal) — *React.js, Redux, CSS, SCSS, Node JS, MongoDB.*

- This project is the customer portal of the gas company. In which we have much flow of start, stop and transfer services, billings, payment plans, notifications, guest access, and many more.

- The role in this project is to manage UI components, APIs calls, and Managing the redux store.

Viaanix Portal — *React.js, Serverless Framework, AWS lambda Node.Js, Redux, Redux-saga, Javascript, CSS, SCSS, GraphQL, PostgreSQL, Apollo, AWS IOT CORE, DynamoDB, AWS Amplifier, AWS APIGateway.*

- This project is related to managing IoT devices. It has basically three panels Based on login type customer, distributor, and admin they differ each by permissions.

Politiq — *React.js, Redux, CSS, SCSS, GraphQL, Redux-toolkit, AntD, Node JS, AWS EC2, AWS Route 53, Lambda.*

- This project is related to Elections. You can login with Google and Facebook. In this you can create, manage, like, share a post to the followers.Facebook. In this you can create, manage, like, share a post to the followers.

NeoBenk — *React.js, Redux-Saga, Javascript, Material UI, CSS, SCSS, Bootstrap, Node JS, AWS lambda, Amplifier, AWS SES, AWS Secret manager, AWS Route 53.*

- This project is related to Online Money Transfer.You can login with Google and Facebook.In this you can Transfer, Send and Receive Currency and as well as digital currency from other users.

R.G.N. Patel Institute of Technology, Bardoli IN — *B.E.(Computer Science Engineering)*

August 2016 - February 2020
