iOS APPLICATION DEVELOPER

Career Summary

Professional with around **2 years** of experience in iOS development, I have successfully developed number of robust and user-friendly iOS applications using Swift and Xcode. I am proficient in UIKit for building intuitive user interfaces and integrating with backend services and APIs. With a strong understanding of best practices and a keen eye for debugging and testing, I have consistently delivered high-quality applications. I stay up to date with the latest trends and guidelines, ensuring my skills are current and valuable to any iOS development team.

Technical Skills:-

Native iOS App development | Swift Language | MVC Design Pattern | MVVM Design Pattern | Optimized & Understandable Code | CoreData & Core Animation | Keychain Manager & Local Database | Rest APIs | CoCoa Touch | Manual Testing & Postman | C Language & oops | Json Parsing Cocoa Pods | Apple Maps | Firebase | Google Sign In/ Apple Sign in | Social Login | Swift | Notifications | Debugging Skills | Error Handling.

Work Experience

Sep 2022 to October 2023 with Pairrozx Technologies, India as iOS Developer (Full Time)

Roles & Responsibilities

- ❖ Demonstrated proficiency in Native iOS App development, creating impactful applications that deliver exceptional user experiences.
- ❖ Employed the Swift Language to craft robust and efficient code, ensuring the development of high-quality and responsive applications.
- ❖ Implemented the MVC Design Pattern and MVVM Design Pattern to architect scalable and maintainable applications, fostering effective collaboration within teams.
- ❖ Orchestrated optimized and understandable code, prioritizing clarity, and efficiency to facilitate seamless teamwork.
- ❖ Integrated CoreData and Core Animation to enhance user interface elements and local data storage strategies.
- ❖ Leveraged Key chain Manager and Local Database techniques to fortify security measures and protect sensitive user information.
- ❖ Established seamless connections to backend services through Rest APIs and Cocoa Touch frameworks, enabling real-time data exchange.
- ❖ Conducted comprehensive Manual Testing and utilizing Postman for API testing to ensure the polished performance of applications.
- ❖ Contributed to code robustness and extensibility by leveraging my expertise in the C Language and Object-Oriented Programming principles.
- ❖ Streamlined third-party library integration using CocoaPods, alongside adept JSON Parsing skills, to enhance application capabilities.
- ❖ Enhanced application features through the integration of Apple Maps and Firebase, enriching user experiences.
- ❖ Facilitated user-friendly authentication with Google Sign In, Apple Sign In, and Social Login functionalities.
- ❖ Implemented Swift Notifications to engage users and deliver timely information, thus boosting user retention.
- ❖ Showcased strong debugging skills to ensure smooth user experiences by promptly identifying and resolving issues.
- ❖ Exemplified adept error-handling techniques to enhance application reliability and minimize risk.

Roles & Responsibilities

- ❖ Designed and developed applications for the iOS platform, focusing on creating user-friendly and visually appealing Interfaces.
- ❖ Ensured the timely execution of tasks, consistently meeting project milestones and delivering results as per the project manager's expectations.
- ❖ Collaborated effectively within a cross-functional team, actively participating in discussions to conceptualize, design, and implement innovative features.
- ❖ Expanded skill set by acquiring knowledge of various web technologies, while also familiarizing myself with UI/UX standards to enhance user experience.
- ❖ Demonstrated a profound understanding of Apple's design principles and interface guidelines, ensuring the alignment of applications with industry best practices.
- ❖ Utilized Xcode extensively as the primary development environment, harnessing its capabilities to create robust and functional iOS applications.

Projects

EXPRESS BUDDY: Introducing Express Buddy, a professional driver-based app for Singapore. It connects users without driving, abilities to nearby drivers, offering convenient transportation and efficient delivery services for flowers, food, furniture and more. With a user-friendly interface and a focus on safety, Express Buddy ensures reliable and hassle-free experiences. Users can enhance their mobility with Express Buddy, their go-to app for reliable drivers and seamless transportation solutions.

STORYGENY: Ignite your creativity with Storygeny, the ultimate digital story creator and networking app. Unleash hilarious short stories with friends, fueled by fun prompts and quirky characters. Dive into interactive challenges, showcase your tales, and forge bonds within a vibrant storytelling community. Join Storygeny now to turn your imagination into unforgettable adventures.

Wayz : Introducing, a professional Ride Sharing app for Saudi Arabia. With advanced features like route optimization, real time tracking, and custom markers on intricate maps, Wayz Companion revolutionizes the rental experience.

Captains can maximize efficiency with optimized routes, stay connected with users and fellow captains through real-time tracking, and easily navigate with customers.
