

Kabir Ahmed

Driven to turn innovation ideas into practical solutions positively impact lives.

EXPERIENCE

Monster link FZE, Sharjah, UAE — Operation Executive

March 2023 - August 2023

Dealing with international transactions, Quality Control, Client Relationship & Risk Management, Market Research and communication, Performance monitoring & Representation, Project management, Continuous Improvement, Negotiation skills .

The Key laboratory of Complex System Modeling and Simulation, Hangzhou, China — Research Assistant

June 2020 - July 2022

Crafting practical solutions for a brighter and dynamic tech era by using cutting edge technologies like AI, ML, and security for dealing with future generations.

Org Quest Research limited, Dhaka — Field Executive

June 2017 - August 2019

Client relationship, product & market research, technical support, reporting & documentation, Collaboration, Adaptability, Navigate challenges with agility and confidence, Incident Response, Safety awareness, Team collaboration, Organization.

EDUCATION

Hangzhou Dianzi University, Hangzhou, China — Master's Degree-Computer Science

Sep 2019-22, CGPA 3.91 (first position of the batch)

PROJECTS

Smart Application — Empowering era with versatile automation, optimising supply chains.

Computer vision, Security, Automation, project management, technology integration, supply chain optimization, Data analysis, industrial IoT, Adaptability, Attention detail.

AI Vision — Pioneer Automation with cutting edge tech.

Software development, Advance technological innovation, system integration, programming, cloud computing, big data analysis, agile methodology, predictive modelling, deep learning, neural network design, Conflict resolution, Productive.

Security & Management System — A robust platform designed to efficiently manage vast volumes of data with tailor made hardware solutions to address security concerns.

Hardware optimization, network security, Data encryption, embedded system, threat modelling, behavioural & Root Cause analysis, Risk Assessment, Access control.
