

# CORPORATE PROFILE 2024

---

## Reason for existence

---

### Driving business growth through digital transformation

We ensure our engagement with clients more committed and instrumental in bringing future-ready industry standard solutions and result oriented delivery.

Our mission is to be the catalyst in bringing best of our capabilities such as IT consulting, solutions and services and fulfill business objectives. We take full ownership in aligning our thoughts with stakeholders and helping them every step of the way transforming conceptual approach into fully transformative experience.

We, stand as experienced and single window approach to customers to industry specific solutions. Our expertise in Healthcare, Education, E-commerce, Edtech, Insurance has helped us evolve more in understanding business problems and the best way to deliver solutions with business objectives.

---

## Vision & Mission

To become a business community of values and nurture social balance. We have always viewed our company to be the equilibrium of IT & the social fabric. When we create a business-driven community, we also preserve and nurture the core values. One has to innovate things but should also maintain the social balance with the development. Adapting new things, exploring possibilities & preserving the societal balance go hand in hand in NO Brain IT Solutions.

We believe any company or business corporation is part of the society first & is duty-bound to the Society in certain aspects. NO Brain IT Solutions always preserves this balance.

To build and provide value-driven solutions. With consistency, perseverance, & persistence, we aim to build value-driven solutions. We are professional in creating the solutions, flexible in adapting to newer changes & are sincere in integrating the best in class solutions. With our constant efforts & exploration, we are sure that we shall be one of the leading IT solutions provider in the country one day.

When you associate with NO Brain IT Solutions, you associate with a team of dedicated & passionate individuals.

# Organizational values

## Innovation

Change is the only constant, hence the innovation is inevitable. We constantly evolve with time advancing our studies of various industry domains to keep innovation at our disposal.

## Quality

There is no fun sustainability with quality in what we do and this is what helping us grow with our customers with long term commitments.

## Attitude

Building an enterprise that is full of values and culture requires a unique perspective and that is what we aspire to exhibit through our attitude.

## Social Responsibility

We make sure our values and virtues are well aligned with social Responsibility. We aim to use our capabilities in empowering people and turning opportunities into opportunists.

## Leadership

---

Key people, defining vision and being role model.

### **Mr. Anand Pawar**

---

Director, Social Activist, Co-Operative Banking Expert

He has extensive experience in the Co-operative Banking sector. His expertise in that field, his vision, & guidance help us every step of the way. He spent half of his life in the banking sector, where he guided & helped farmers and small business owners in understanding & using the banking services in the country in the best manner. Mr. Anand Pawar climbed the ladder to success with his efficiency & expertise & retired as the Chief Officer. He is not only an asset to the company; he is a visionary who helps us grow together.

## Mr. Sachin Pawar

Founder, Solution Architect

---

Passionate, Enthusiastic, A True Leader are synonyms to his name. Mr. Sachin leads the company and uses his experience in building solutions for clients in the Healthcare Industry, secondary Markets, & Media domains. He helps these domains using tools such as Microsoft Technologies, Java, PHP, InstallShield. An IT solutions company always needs a wizard to mentor the company as well as the clients. Mr. Sachin paves a way to success for the company & mentors the start-ups to scale up. He also helps the start-ups evolve technologically

## Leadership

---

Key people, defining vision and being role model.

### **Mrs. Nikesh Singh**

Director, Products Owner

---

With 4+ years of experience in Business Development, Ms. Nikesh Singh has not only helped organization to scale also ensured company to be employee centric. She is focused and committed towards woman growth and social initiatives. She is dynamic, good teacher, keeps books on personality development and leading business development team.

## Technology experts

our expert team is spread across highly reliable positions;

Role	.NET	Java	ANGULAR	QA	UI	BA	Total
<b>Architect</b>	2	1			1		4
<b>Leader</b>	5	1	1	1	1		9
<b>Enabler</b>	9	15	7	9	2	1	43
<b>Total</b>	<b>16</b>	<b>17</b>	<b>8</b>	<b>10</b>	<b>4</b>	<b>1</b>	<b>56</b>

### System Renovation

#### **A stagnant system may not derive good results.**

#### **For keeping the system updates, we provide:**

- System Upgrades-We assess the company's present system and, upon evaluation, upgrade the same architecturally and technologically. Such upgrades are instrumental in the inclusion of newer system tools and updated mechanisms.
- Database migration- A system or software often adopts a newer, better platform for better results. Such scenarios create the need for database migration. We have helped our clients during this phase through processes such as Co-operation of Benefits, Third-Party Liabilities, & MSP

Healthcare

**A highly competitive industry can not outcast edge in the market, hence we diligently practice innovative approach.**

- The competition in the Healthcare industry is very high. It requires constant innovation and up-gradation. We have been building collaborative platforms for many healthcare providers, implant manufacturers.
  - We have successfully integrated insurance carriers with ZirMed integration for the insurance claims validations of the patients. We have integrated Eligibility Verification using MSP CMS API.
-

## Domain expertise

Insurance

**We have collaborated with some of our clients from the Insurance industry in integrating claims.**

**We have also helped them by giving solutions to grow their market in both B2B & B2C categories.**

---

## Domain expertise

E-Commerce

**In the E-commerce terrain, we have customized solutions to the companies for better order management at the consumer level and at the distributor level.**

**One more delightful thing is that we have our very own framework ready for establishing an online grocery store. This framework is not as heavy as some other online store frameworks are.**

---

## Our Products

### Business Process Automation Assistant

DynoProcs is your best-in-class Business Process Automation assistant!

DynoProcs is a lightweight, cost-effective product that saves your business from endless paperwork, missing out on important events or low productivity issues.

DynoProcs strengthens businesses both small & large by automizing the internal business processes & by providing built-in support for analytical reports. It has a crucial feature of real-time team collaboration. With the help of DynoProcs's context-based chat, all the team members can collaborate on tasks easily.

DynoProcs has already helped many of our clients from banking, Automobile, & E-commerce Sectors, where they have digitized manual registers.

## Our Products

### Digitization analytics

DynoForms is an extension of DynoProcs, specially designed to digitize the manual registers.

It features Maker-Checker Workflow, Document Digitization, & Custom Build Dashboard with Analytics.

One of the well-known Automobile parts manufacturing companies installed DynoForms to digitize their Quality Measurement System.

## Our Products
