OMAR ALSAFARTI

Software Developer

Tirana, Albania | +355 69 874 9348 | omaralsafarti03@gmail.com

CAREER SUMMARY:

I am a third-year Software Engineering student studying at Epoka University in Albania. I am solution-oriented and problem solver with more than three years of experience building and working on software projects. I enjoy working with a team but I can also work independently.

WORK EXPERIENCE:

Freelance in App Development

App Developer | React Native, Typescript, JS, Expo, Android Studio| 10 Oct, 2022 - Present

- Created and maintained cross-platform mobile apps with React Native and TypeScript, ensuring a seamless user experience on iOS and Android.
- Collaborated with design and product teams to transform wireframes into high-quality, functional mobile applications, meeting project goals and user expectations.

Western Balkan University | Freelance

Web Developer | PHP, SQL, HTML, CSS, JS, Laravel, Nova | 21 March, 2020 - Present
- Built an application form where students can apply to Western Balkan University (based in Tirana, Albania).
- Develop a university website with Laravel framework and Nova.

Vrain.io | Internship

Web Developer | PHP, SQL, HTML, CSS, JS | 01 January, 2020 - 15 June, 2021
- Worked on rebuilding and updating vrain.io website by scraping items from Amazon and BestBuy using PHP and Goutte library.

PROJECTS:

Midjourney and Stable Diffusion Images and Videos Generation

AI Research Assistant | MidJourney, SD, Python, Google Collab | 10 Oct, 2022 - 10 Feb, 2023

- Made researches on Midjourney and Stable Diffusion.
- Exploited the power of ChatGPT to write detailed prompts for each Midjourney and SD.
- Generated many images and videos in Stable Diffusion via Google Collab and Python.

Western Balkan University Website

Back End Developer | PHP, SQL, HTML, CSS, JS, Laravel, Nova | 21 March, 2020 - Present

- I work with Laravel and Nova to add the data dynamically and efficiently into the website.
- In the website we have news, offices, talents, students data, clubs and much more.
- I have worked with SEO and content writing and proofreading due to my good English skills.
- I also have a good eye of design and creativity, so I also work on the frontend part of the website.
