- Address - Vijayawada, India

OBJECTIVE

As a dedicated and innovative front-end developer, my objective is to contribute my expertise in web development to create visually appealing, user-friendly, and responsive interfaces. I aim to leverage my strong proficiency in HTML, CSS, and JavaScript, along with a keen eye for design, to enhance the overall user experience. I am committed to staying abreast of emerging technologies and industry trends, enabling me to deliver cutting-edge solutions that align with the goals of the organization. Seeking a challenging and dynamic environment where I can collaborate with cross-functional teams to translate creative concepts into seamless and interactive digital experiences.

EDUCATION

Class x vidyalaya public school – gudivada – 2017
