PROFESSIONAL EXPERIENCE

1- Gomal Themes - <https://www.gomalthemes.com/> Sr. Software Engineer (Feb 2020 – June 2022)

Gomal Theme is the best way for employees to get financial relief between pay-checks, a service needed by two-thirds of the workforce. They give businesses the tools essential to ease the financial stress of their employees and build a high-performing workforce.

Key Responsibilities:

- HTML, CSS, Scss, Tailwind, JavaScript & JQuery
- PSD/XD/FIGMA to WordPress
- WordPress Theme Development
- WordPress Plugin Development
- Custom PHP work
- Shopify Custom Theme Development
- Light-Speed Custom Development

2- Logic Powered Solutions - <http://logicpowered.net> Sr. Software Engineer (Oct 2017 – Jan 2020)

Logic Powered Solutions is a software development company located at Evacuee Trust Complex (STP-1) F-5/1. I am working with a team developing a solution for oil fields, a machine learning-based application that predicts pipeline anomalies.

Key Responsibilities:

- Design to UI (Using different front-end frameworks Bootstrap, Tailwind, Foundation, Sass, Scss)
- Custom PHP work
- Laravel custom development
- Shopify Custom Theme Development
- Wordpress Theme Development
