PROFILE SUMMARY

Experienced Flutter Developer with 1 year and 7 months of professional experience, plus a 3-month internship. Proficient in building high-performance mobile applications using Flutter and Dart, integrating backend services, and collaborating effectively in agile environments. Demonstrated expertise in state management, API integration, and deployment processes. Dedicated to delivering scalable and user-friendly solutions, staying updated with the latest industry trends, and continuously improving technical skills to meet evolving project requirements.

KEY COMPETENCIES

- Dart programming
- Flutter framework
- Android/iOS app development
- Push notifications
- State management (GetX, Bloc)
- RESTful APIs
- UI/UX design
- Continuous Integration/Continuous Deployment
- Debugging and testing
- Git/GitHub/GitLab
- Mobile app architecture (MVC)
- Performance optimization techniques

EMPLOYMENT EXPERIENCE

Junior to Mid-Level Flutter Developer **Trioency Solutions - Ahmedabad**

May 2023 - May 2024

Led projects, enhanced app performance, and collaborated across teams for top-tier mobile applications. Spearheaded development, introduced advanced features, and mentored peers for a dynamic team culture. Key in deploying apps meeting client needs and industry standards, driving continuous improvement through code reviews and bug fixes.

KEY PROJECTS

- **PWS - Admin App - Lead Developer - Android and iOS**
Flutter app for streamlining insurance operations. Policy management, client tracking, real-time updates. Backend/Firebase integration, GetX state management.
- **My Meeting - Assistant developer - Android and iOS**
Flutter app for co-working space management. Space booking, amenity reservations, community events, member profiles. Backend API integration, GetX state management.
- **Bright Matrimonial - Lead developer - Android**
Flutter app for matrimonial matchmaking. Profile creation, preference matching, interest tagging, chat/video calling. Firebase authentication, backend API integration, GetX state management.
- **Order Sarthi - Lead developer - Android**
Flutter app for managing orders in local businesses. Order placement, inventory tracking, delivery scheduling. Push notifications, offline support, GetX state management.

Junior Flutter Developer
Sparks To Ideas - Ahmedabad

Nov 2022 - Apr 2023

Enhanced mobile app development through UI component creation and team collaboration, spanning from concept to deployment. Conducted rigorous code reviews for robust and maintainable applications, optimizing performance and integrating backend services. Proficient in state management, API integration, and project delivery, fostering teamwork and stakeholder communication.

KEY PROJECTS

- **Student Portal - Lead Developer - Android**
Flutter app for student portal and academic resources. Course enrollment, assignment submissions, grades tracking. Firebase authentication, backend API integration, GetX state management.
- **Unai - Lead developer - Android**
Flutter app for loyalty programs and reward management. Points tracking, reward redemption, special offers, and promotions. Backend API integration, GetX state management, push notifications.

Flutter Intern
Sparks To Ideas - Ahmedabad

Aug 2022 - Oct 2022

Collaborated with senior developers to build robust Flutter applications, gaining hands-on experience in state management, API integration, and deployment strategies. Contributed actively to team discussions, problem-solving sessions, and code reviews, learning essential skills for mobile app development.
