## ● ABOUT ME

---

My self **Pronob Sarker**, Graduated From IUBAT-International University of Business Agriculture and Technology. I have a deep interest in the web development field and am particularly fascinated by Laravel web framework. I have 2 and more years of working experience in this field.

Not only in development sector, I have also experience in project documentation, issue solving, customer support, Software testing etc.

As an employee i am detail-oriented, organized and meticulous . Works at fast pace to meet tight deadlines. Enthusiastic team player ready to contribute to company success.

I eager to collaborate with customers to find optimal solutions. Carefully customizes each product to user needs and budgets. Provides reliably actionable code and software assets for customers and internal data libraries.

### PROJECTS

**Easy Downloads - Multi Vendor Digital Product Download Marketplace** "Easy Downloads" is a complete solution for Multi Vendor Digital Product Download Marketplace which provides Premium Features to make Online Business. "Easy Downloads" is a platform where users can buy and sell digital products such as software.

Project Demo link is given below:

1. [View Website](#)
2. [Admin Panel](#)

**URL King - Advanced URL Shortener** URL KING is the Advanced URL Shortner Platform that has all the necessary features to start a Standard URL Shortner System! It allows you to shorten a long link into short smart links that are easy to remember and easy to share. It also allows you to share your short links with your friends and family.

Project Demo link is given below:

1. [View Website](#)
2. [Admin Panel](#)

**Personal Portfolio and Blog Laravel Script** It is based on Bootstrap and made to show user resume (education, work experience, skills, etc.), portfolio, blog and contact information in a wonderful way with an unique and beautiful piece of design. It's developed with Laravel. user can change any section as their choice very easily.

1. [Github](#)

**GeniusCart - Single or Multi vendor Ecommerce System with Physical and Digital Product Marketplace** This Software has been developed for the people who wants to create an online store which can sell everything! Regular online store can sell only one type of product such as physical product, Digital Product or License key product.

Project Demo Link is given below:

1. [view website](#)
2. [Admin Panel](#)

## **COMMUNICATION AND INTERPERSONAL SKILLS**

**Problem Solving and Decision Making**

**Team Working**

**Customer Support** Contact with customer and fix bug in their projects also the main task for me at genius ocean. We contact with customer through support desk and assist them in their projects.
