ABOUT ME

I am an experienced and passionate software engineer with 3 years of experience and expertise in web engineering and a drive for staying ahead of the latest technologies. I thrive in fast-paced environments and prioritize keeping up with the ever-changing world of software development. I am dedicated to helping companies increase their revenue through the use of innovative software development techniques, and I value helping other members of my team grow and excel. I believe in lifelong learning and am constantly searching for new ways to improve my skills.

EXPERIENCE

Web Developer

Sonayi Safari Lodge and Campsite
August 2023- current

As the web developer for Sonayi Safari Lodge and Campsite, my responsibilities include web design and development with a focus on SEO, user experience, and user interface design. Impactful contributions I've made to the company include increasing the productivity of and providing guidance to the junior web developer, and improving website SEO, accessibility and performance by 29%, 19% and 8%, respectively.

Freelance Web Developer

Remote
January 2022 - July 2023

As a freelance web developer, my main responsibility was to develop websites from client's web designs based on their requirements and specifications. Some impactful contributions I made include improving the client's web designs and user experience, improving their website security, and performance.

Technology Director

Tanzania Education Corp
January 2020 - December 2020

As a Technology Director, my responsibilities included teaching high school students HTML, CSS, JavaScript and Python, creating a new curriculum, maintaining STEM lab computers and systems, and assisting with extracurricular activities. I also, helped the teaching staff with their computer problems, helped my co-workers reach their goals and led a team of 2 independently and ensured a more productive work environment.
