Mobile Solutions for Chronic Disease Management

**Ashish Seth, Co-founder & Head of Mobile Services
InnovationM**

According to a report from Centers for Disease Control & Prevention, chronic diseases are the leading causes of death and disability in the United States. Seven out of 10 deaths among Americans each year are from chronic diseases.

Chronic disease patients usually require attention and medicinal correction more frequently than can be covered through routine visits to the care provider. There is a need for patients and care providers to be connected to each other for better management of chronic diseases. There is also a need to reduce the overall cost of treating chronic diseases. Currently, according to the Centers for Disease Control & Prevention, 75 percent of U.S. healthcare dollars go to treatment of chronic diseases.

Role of mobile technology in healthcare

Hospitals and care providers are working with mobile technology companies to build mobile solutions for patients and care providers that fills the gap between the doctor visits, provides a way for patients to regularly provide info related to their state of health to the doctor and enables doctors to provide medicinal help and guidance to better manage the disease.

Life@InnovationM

Sachin Prakash (Sr. Manager - Operations)

I have been working with InnovationM for around 7 years now, and my experience as a Manager-Operations has been fulfilling. It has helped me understand my domain better and provided many opportunities for growth. I have been given complete autonomy this is something that allows me to flourish as a professional and excel at what I do.

Jijo Mathew (Manager-Tecnology)

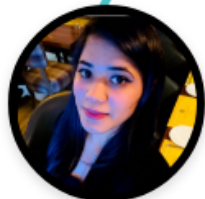

It's been around 3.5 years since I joined InnovationM and my experience of working here has been very enlightening. The opportunities offered here are great and have helped me to grow. Additionally, the organization ensures the work-life balance of its employees by addressing their mental health and well-being. Working here, in a great culture and team has been an enriching experience.

Parul Upadhyay (HR Manager)

Working with InnovationM these years has been a fantastic experience so far. Joined as Sr HR executive 5 years back and promoted recently as "HR Manager" gave me multiple opportunities to groom myself and excel in my knowledge of Human Resources. Must say, the company culture and seniors are so supportive joining here was my best decision!

Life@InnovationM

Sakshi Kohli (Recruitment Lead)

I have been working with InnovationM for almost 2 years, and it has been a phenomenal experience. The learning and growth opportunities received here have helped me to achieve my career goals. I really appreciate the supportive environment which helps me stay motivated. The management has always been there for me and treats everyone exceptionally well.

Shiv Kumar (Senior Quality Analyst)

My experience working with InnovationM for 2.7 years has allowed me to learn, grow, and continuously transform myself professionally, which has enabled me to achieve my best. When it comes to organizational culture, there is a constant sharing of ideas, and the management goes above and beyond to ensure everyone is well supported.

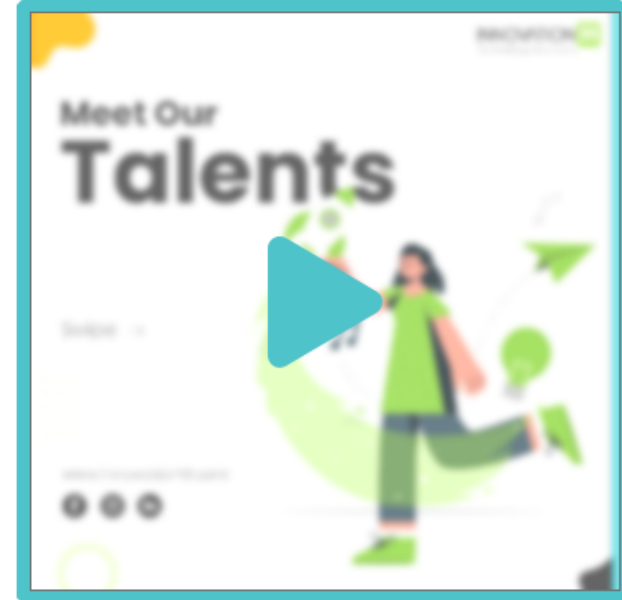

Sankalp Gupta (Senior Sales Consultant)

It has been a very enriching experience working with InnovationM for around 1.5 years now. Working on different projects has provided me with a lot of exposure. The organization cares about its employees as individuals and strives to help them accomplish both professional and personal goals. I have had a wonderful time working here and am looking forward to achieving and growing more.
