INTERNSHIP

- DigiBytz Solutions Simplified, Gandhipuram (Intern For 10 days)

PROJECTS

- **Exam Seating Arrangement For College**
  - Exam seating arrangements assign specific seats to students to prevent cheating and ensure fairness. They can be organized alphabetically, by student numbers, or randomly. Efficient arrangements minimize distractions and promote a conducive testing environment.
  - Tools : HTML, JAVA

- **Marketing Mobile Application**
  - A marketing mobile app promotes products/services, engages customers, and boosts sales via smartphones/tablets. It offers features like push notifications, in-app messaging, and loyalty programs to enhance user experience, gather data, and optimize marketing strategies.
  - Tools : SQL Database(Worked With Team)

- **Network Monitoring System**
  - A network monitoring system alerts administrators to network issues like downtime or security breaches using tools like SNMP and packet sniffing. It provides real-time updates on network performance and security to ensure smooth operation.
  - Tools : JAVA, XML
